

Jesus will settle the bill.
It's true I'm a champion sinner,
Can compete with any who will;
But to me the wrong is no matter,
For Jesus will settle the bill!

I'll be sure and repent while it's early,
But at present will roam at my will;
Just ceasing in time to be sorry,
And Jesus will settle the bill!

I will steal, I will rob, and I'll murder,
Or do any dark deed that I will;
Defraud my brother or neighbor,
For Jesus will settle the bill!

This is the lesson that's taught us,
By those who the path of life fill;
That for every wrong that's done by us,
Kind Jesus will settle the bill!

But Reason refuses the credit,
And holds us, our consciences to fill—
And I think, at the day of judgment,
I'll find I must pay my own bill.

—Stephen White.

THE COMING MINE.—Another week has passed and we are once more informed as to the progress made in working the Zalida Mine, and the general appearance of the ore. The owners, Messrs. Noyes, Kelley, Day and Fitch, have, with undiminished energy and skill, prospected this lead, which was small on the surface showing ore of a rich character, however, to a depth of 70 feet, and now have the gratifying satisfaction of knowing that they have a genuine lead and body of very rich carbonate ore 20 inches wide worth from \$150 to \$200 to the ton. Although these gentlemen started in unlike ourselves, "millionaires," they are to-day the possessors of undoubted wealth in being the owners of the coming mine in this section of Arizona. The company are now hauling their ore to the Arizona mill for reduction, which is taken from the mine without being assayed or selected—just as it comes from the mine—with a view to get a fair test and to know exactly what their mine is worth. Should the test prove anything near what the owners expect to realize, they will undoubtedly procure and erect a mill on the lead as they have plenty of water, wood and every convenience there for the cheap working and reducing of their ores. It is the belief of good judges that the Zalida is another of those hidden treasures, of which we have many, similar to the Peck. It seems as if many years of darkness here in Arizona that the cloud is about to be raised and a bright, bright future to take its place.

WOMAN'S SUFFRAGE FOR COLORADO.—Byers of the Denver News has almost gone wild in favor of Woman Suffrage, and as the question is about to be voted on in that new State, he is making every effort to have his views adopted by the people. To this end the services of Mrs. Margaret W. Campbell and her husband, Mrs. Mary F. Shields, Miss Lelia E. Partridge of Philadelphia, Miss Susan B. Anthony of New York, and Henry B. Blackwell and his wife (Lucy Stone) of Boston, have been secured, and these of Mrs. Livermore and Wendell Phillips are expected, as lecturers through the State, from now until the election.

Speaking of "Aunt Susan," the News says: "Best of all, she comes as the representative individual who has braved all things, hoped all things, sacrificed all things, which selfish ease and pleasure hold dear, that woman might be free. She needs no introduction to people who love courage, common sense and justice. She is the faithful friend of 'fair play'."

MONAHV MINES.—Mr. Fuller, from San Francisco, a cautious, clear-headed mining man, has purchased an interest in the Arnold ground in Cedar District, and will commence developing the same. The Arnold is a large lead and contains much of the same ore through the whole body of ledge. It would not surprise us to see the Arnold ore being reduced soon by a splendid new ten stamp silver mill. The McCracken Company are still working over from their mine at the Greenwood Mill which is turning out over \$80,000 per month. The Signal Company are driving work on their new mill, and it will soon be producing an income that will make the owners all of whom are good business men, wealthy. Success ought, certainly, to crown their energy and laudable undertakings. The new 20-stamp mill of the McCracken Company is also fast drawing to completion. More anon.

FOUR WEALTHY MEN.—Flood, O'Brien, Fair and Mackey, known as the bonanza kings, are worth a money and property worth of \$100,000,000. Their aggregate income from all sources is estimated at hard on \$3,000,000 per month. These men are the owners of the great silver mines of the Pacific slope. They originated the silver movement which now agitates the country.

And when the Peck, King, McCracken, Zalida and other valuable leads in Arizona shall have been thoroughly developed, we, too, will have money, kings and heirs in the Granite street stock exchanges. We will send California street, in San Francisco, to the wall, and cause her multitude of sharpers to stop and wonder. This is no idle jesting, but will become, not long hence, a truthful reality.

The Jicarilla gold district, which was mentioned in a recent issue, according to late reports, now contains about 300 American miners, and 40 Mexicans. The largest mining camp is about 30 miles north of the flourishing town of Lincoln, the county-seat of Lincoln county, in latitude 34 degrees, longitude 20 deg. 30 min., situated in what is known on the map as the Jicarilla range of mountains. Gold has been found in the Gallina range of mountains, north. To the south of the Jicarilla mountains is a body of decomposed plateau lying in the middle of an extended plain, white as the snow from heaven, about 60 feet high, 800 yards wide, on a 20 miles long. Here is also found the McGowan Salt Lake, which furnishes salt to the inhabitants of New Mexico for a radius of 400 miles.

The Dursey Mill & Water Co., of Pinal county, this week shipped per Daguer's train, a complete two-stamp quartz mill with two pans, settler, boiler, engine and all the gear. It will be put up a few miles from Globe City. The arrangement is peculiar. The stems of the stamps work like pistons through a stem cylinder attached to each. The stamps are raised and the blows delivered by steam, instead of by the customary delivery of the stamp. This plan permits the delivery of a blow equal to the drop of a 2000 pound stamp. One hundred blows can be delivered per minute and it is claimed that these two stamps can be made to crush ten tons of ore daily. Good luck to it.—Yuma Sentinel.

From a private letter to us by W. H. Willescraft, Esq., dated Hardyville July 14th, we learn that the gentleman's name, mention of whom we made in Saturday's daily as having been found six miles from Hardyville, dead, was S. A. Dougherty, from Santa Clara, California, and was destined for the Cedar District mines. Mr. Dougherty had with him at the time of his death two horses and a small amount of currency. It is thought he was thrown from his horse, receiving injuries which caused his death.

Messrs. Riley and Roberts, of the Hackberry Mine, in Mohave county, have gone to San Francisco on mining business.

Local Intelligence.

SATURDAY.

D. R. Poland arrived in town this afternoon. Prince Parker, the intelligence office gentleman, has gone to New Mexico. Geo. Berry has located some valuable mining property on Wolf Creek.

Judge French, in trying the Cole-Bean case, presided over the most important question ever tried by a court in Arizona.

It is our painful duty to record still another case of typhoid fever. Miss Rice, a niece of County Treasurer E. J. Cook, is reported seriously ill with this prevailing and alarming disease.

Our Sick. Miss Rice is reported as improving. The little daughter of Postmaster Otis is much better. Mrs. Murat Masterson is also on the improve. Little Grace Bean is quite sick, but nothing serious is entertained.

Messrs. Hall & Young, the popular and very efficient painters who make graining a specialty, have contracted with Mr. Lewis for the painting of his new bank building. These gentlemen have an excellent reputation, and their work gives satisfaction wherever executed.

A. S. Haskell and James Patterson left this morning to go over the Black Canyon road, which has just been completed, with a view to examining the work and reporting the same to the board of supervisors, which if the report is favorable, they will accept and pay the balance due. Mr. Patterson, per contract, for its construction.

The Board of Supervisors met this morning and awarded the contract to Wilson & Haskell for the digging of a well on the plaza. The conditions are that the well shall be six feet in diameter, walled up with brick and shall be sunk until sufficient water shall be secured, and they are to receive four dollars per foot for the work, which is very reasonable.

Hon. Thos. Fitch, wife, and mother-in-law left this morning for Paris, France, to be absent about four months. Mr. Fitch has been compelled to make this costly and much dreaded trip on account of the health of Mrs. Fitch, who is and has been troubled for a long time with a cancer, and is compelled to go there to have it carefully and effectually treated.

Messrs. Gillett and Hoffman, two good judges of mines, have been to Turkey Creek, Peck and Hamburg districts, examining the various rich mines in the several districts. They are well pleased with what they saw, and seem to think that these districts have a bright future. Mr. Hoffman, we understand, intends visiting the mines in Maricopa, Pinal and Pima counties, before returning to San Francisco.

As an exhibition of artistic workmanship in the confectionery line, we have seldom, if ever, seen the frosting on the cake manufactured by Dan Hatz, for Miss Mary Bean, on the occasion of her seven birthday, excelled. The inscription read: "May Bean, 7th birthday—July 19th, 1877."

Then the lattice work, Billy work, shell work and other ornamentation showed Dan to be an artist of the very highest order. The cake itself was exceedingly tasty.

CORRECT HIM.—Mr. Meyer was yesterday arrested and taken before Judge Carter, charged with robbing, and a threat to take the life of W. Z. Wilson. He deposited \$500 to insure his attendance in Court this morning. The case being called at 10 o'clock to-day he asked further time until Monday to procure counsel, which was granted. Three instances of the case as we have heard them are, that Meyer has been working for Wilson & Haskell at the plating mill, until his wages come to \$200, which was paid him, but he insisted on interest, which they refused to pay, and he checked a pistol and held it at Wilson's head until he compelled him to sign a dueling bill for some \$50 interest.

FUNERAL OF LITTLE IDA.—A large number of our citizens gathered together this afternoon to pay their last respects to the burial rites of one of Prescott's purest and most precious jewels, little Ida Emily, twin sister of Eva and daughter of our friends J. C. and Louisa Peck, who departed this life yesterday, and celebrated her third anniversary in a higher and holier sphere, and for aught we know, with that bright angel Henrietta Behan, her cousin, who preceded her a few months. The Rev. Mr. Campbell delivered the funeral sermon in a feeling and appropriate manner—his remarks bringing tears to the stoutest hearts. Little Ida has gone, and all that was mortal of that little child, and that yesterday morning, before life departed from the body, now lies in yonder charnel yard, where it is to remain forever, with the afflicted parents and relatives, the whole community sympathize in this, the hour of their great grief and affliction.

ONE MORE UNFORTUNATE.—George P. Brewster, an Assayer, and man of superior business accomplishments, was found in the back room of a house on Granite street, apparently the victim of a deadly condition. Dr. Day was immediately sent for and it was found that he had taken a large portion of morphine with the evident intention of destroying his life. From a paper found on him, it seems that despondency was the immediate cause of the act, though he had good employment as an assayer in the office of Jay G. Kelley, and there seemed to be no earthly reason for becoming tired of life. Mr. Brewster understood banking and the pros business, in which his services were sought in Idaho and Nevada, and but for the unfortunate habit of indulging too freely in the use of intoxicating liquor, would now be holding an important position in some of the leading banks of San Francisco or Virginia City. He was a native of Canada, where for many years he was largely interested in the lumber business. He is a member of the Masonic Order, and respectively connected both in Canada and England.

Since the above was written we learn Mr. Brewster died at about 5 o'clock.

Postoffice Letter List.
List of letters remaining in the Prescott Postoffice, Yavapai county, Arizona, for the week ending July 27, 1877:

MONDAY.
The California and Arizona Stage Company's coach went out empty this morning.
Geo. W. Curtis advertised for 6,000 boards three feet long. Cash is offered for the same.
Mr. J. C. Potts and wife, and Mr. Ed. G. Peck and wife have gone on a visit to Walnut Grove.

Neri Osborn, from Ash Creek, arrived in town last evening. He reports that the rain has not washed that section away.

The various showers during the past few days will cause the grass to grow and clothe our hills and valleys with a raiment of verdure.

A very heavy rain is reported to have fallen in Furguson Valley on Friday last, which caused the arroyos and different streams to run.

The surveyors Messrs. Bennett & Cameron, are about to visit People's Valley for the purpose of making surveys for parties living in that place.

The mail for Camp Apache now goes by way of the Little Colorado, and is carried from Berardo Fria's station by the U. S. Military Express.

Governor Hoyt and Secretary Gosper are furnishing their offices with such articles of furniture as are lacking, and will soon have everything in "apple pie order."

The Mormon settlers on the Little Colorado are said to have a good saw mill in successful operation, and situated in an excellent place on the Mogollon range of mountains.

Capt. C. H. Campbell is ordered to report at Headquarters under arrest. A Court is ordered to convene at Fort Whipple on Wednesday, the 29th inst., to try Capt. Campbell.

J. C. Cameron, Esq., a civil engineer by profession, has entered into a copartnership with E. J. Bennett, our County Surveyor, and the firm will be known as Bennett & Cameron, with their office one door south of the Library Hall.

Mr. Curtis, of the Point of Rocks, started yesterday with a large band of fine sheep for New Mexico and perhaps Texas. The news we learn through his neighbor Mr. Clough, who furnishes the people of this vicinity with an excellent article of lard.

Mr. West, whom the Yuma Sentinel reported as having dug a well on a splendid stock ranch in Yuma county, where there are plenty more of the kind, is in town, and informs us that his stock ranch is at Sol's Wash, in this county.

Geo. Lount and others have entered their protest against the Board of Supervisors accepting the plans and surveys of the contractor who surveyed the road from our village to Bradshaw, on the ground that the work was not done in accordance with the contract.

Messrs. Opldyke & Patterson, who were employed by the County Supervisors to examine the work of the contractor who surveyed the Prescott and Bradshaw road, have made a favorable report on the same, and the Supervisors have accepted the surveys, etc., etc.

If a tin wash-basin measuring 10 inches in diameter is sold for \$1.25 by a certain merchant and a neighborly merchant sells the same quality of a basin, only two inches larger, for 75 cents, and makes a profit of 100 per cent, what is the profit of the merchant who sells the basin for \$1.25?

Haugh & Holm's large 12-horse team with two prairie schooners, loaded to the brim with goods for Geo. S. Peck & Co., Fredrick & Heenan and others, unloaded this morning. These goods came by rail to Yuma, thence by steamer to Ehrenburg and by wagons to Prescott.

Mr. Haskell has returned from Black Canyon, where he went to report on the road recently constructed from Agua Fria to Saillinger's ranch. The report given to the Board of Supervisors, we learn, was favorable, and they have accepted the road and ordered the County Treasurer to issue to Mr. Patterson, the contractor, bonds in payment for constructing said road.

Gideon Brooke, Esq., being still confined to his room and not in a condition to attend to his duties as chairman of the Board of Supervisors, the question of accepting or refusing the Iron Spring Road, of Mr. Miller, which was to have been acted on to-day, necessarily had to be laid over until Mr. B. shall so far recover as to be able to attend and give his sound, judicious views in the matter.

One of the expositors in this office offers himself in evidence to sustain Ingersoll's side of the question concerning the government of children. His father used to lick him every day with a blue beech limb, and you ought to see what a wreck it has made of him. Love, he declares, is the only thing that has ever had any elevating effect on him at any period of his life, and he feels streaks of it, occasionally, even to this day.

The books of the Territorial Treasurer's office are still in Tucson, although Governor Hoyt has written twice to ex-Treasurer Tully requesting him to forward them to Secretary Gosper to be turned over to Mr. Butler, who has qualified and is ready to proceed with the business of the office as soon as the books arrive. Several counties have reported amounts due the Territory, others have sent in warrants for registration, and much inconvenience arises from the non-arrival of the books and papers.

Luke's Silver Mill in Bradshaw Basin started up on Thursday morning last. Mr. Luke putting the first ore into the battery, and made a three days' run in the most satisfactory manner. Competent judges pronounce the mill as one of the most complete in every particular to be found in any country or state. The engine is of 62-horse power and capable of driving 40 stamps where now only 10 are used. The mill was to start up again this Monday morning and will continue to run until they shall have worked 400 tons of ore when a clean up will be made and the result published. We, in conjunction with many others, wish the owners of this laudable enterprise unbounded success.

Verdict of the Coroner's Jury in the Case of the Death of Geo. P. Brewster.
Francisco. — W. J. Howard, F. W. Blake, and Dr. W. E. Day being examined as witnesses, the Jury rendered the following verdict:

We, the undersigned jurors summoned by Warren E. Day, Coroner of Yavapai County, A. T., July 24th, 1877, to enquire into the manner and cause of the death of Geo. P. Brewster, whose body now lies before us, do hereby state as our opinion, from the evidence adduced, that the said Geo. P. Brewster came to his death from an overdose of morphine, administered by his own hands with suicidal intent.

[Signed] T. J. BUTLER, Foreman,
J. L. FISHER,
ROBERT H. DEBORD,
W. H. THOMPSON,
J. E. MITCHELL,
JAY G. KELLEY.

Prescott, July 23, 1877.
